

HESHIBI

LIKE A TREASURE

THE PREMIUM DIODE LASER
HAIR REMOVAL MACHINE

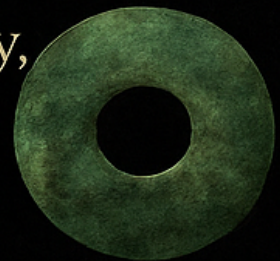

BRAND STORY

Over 2,000 years ago, a humble man named *Bian He* discovered a piece of rough jade in the mountains of Chu.

When he offered it to the king, it was dismissed and he was punished for ‘deceiving the ruler.’

This jade, known as *He Shi Bi*, became the most celebrated treasure of ancient China — passed between kings, desired by emperors, and revered as a symbol of *integrity*, truth, and timeless value.

At HESHIBI, we inherit this legacy, Our name is not just a brand — it’s a promise: to deliver beauty devices that embody *authenticity*, *precision*, and honor—

He Shi Bi:
China's most famous
jade treasure in history

PRODUCT ADVANTAGES

4 WAVELENGTHS

Covers all skin types and hair colors – ensuring wide treatment compatibility.

COMPRESSOR COOLING

Advanced compressor cooling guarantees safe and comfortable treatment.
